

HYDERABAD E-MOBILITY WEEK

DRIVING TO A SUSTAINABLE FUTURE

FEB, 6-11, 2023

HYDERABAD WILL BE THE FIRST CITY IN INDIA TO HOST A FORMULA E RACE ON 11TH FEBRUARY 2023. THE GOVERNMENT OF TELANGANA IS ALL SET TO COMMEMORATE THIS SPECIAL OCCASION AS THE HYDERABAD E-MOBILITY WEEK THROUGH A SERIES OF MARQUEE EVENTS SCHEDULED FROM THE 6TH – 11TH OF FEBRUARY 2023

HYDERABAD EV SUMMIT

**6 FEB
2023**
MONDAY

The Hyderabad e-Mobility Week kicks off with the Hyderabad EV Summit, to be held at the Hyderabad International Convention Centre. The Summit will showcase global leaders, eminent academics and policymakers discussing the future of sustainable mobility. The event will feature a mix of activities such as panel discussions, keynote speeches, and networking sessions by prominent stakeholders in the global EV ecosystem. Stay ahead of the EV innovation landscape by participating in this melting pot of buzzing ideas.

HYDERABAD E - PRIX

The much-awaited Hyderabad E-Prix, the first ever Formula E race in India, will take place over two days, the 10th and 11th of February 2023. Formula E is the premier electric single seater racing series in the world governed by the Fédération Internationale de l'Automobile (FIA). The Hyderabad E-Prix enables Hyderabad to join the prestigious list of E-Prix host cities such as New York, London, Berlin, Seoul, Monaco, and Rome. Come join us to watch some of the fastest single seater cars, 11 of the most competitive constructors, and 22 of the fastest drivers in the world duke it out for the Formula E world titles.

Venue: Necklace Road, Hyderabad

SRI K. TARAKARAMA RAO

Hon'ble Minister for IT, Industries and MA & UD,
Government of Telangana

ON HYDERABAD E - MOBILITY WEEK

It gives me immense pleasure to be able to bring the international e-mobility ecosystem to Telangana leading up to the much-awaited Formula E race. Telangana has always been at the forefront of EV adoption in India. We were one of the first states to launch the EV&ESS Policy in 2020. The state has also attracted investments from key EV Companies such as Fisker, Olectra, Biliti Electric, and ZF Group. It is a fast-growing sector, and we intend to stay ahead of the curve. Telangana also has a growing technology footprint, being home to several of the largest global IT players. This places Telangana, and its capital city Hyderabad, at the perfect juncture to host the Hyderabad e-Mobility Week and the Hyderabad E-Prix. It is going to be a monumental week for the city and a catalyst for the growth of the sustainable mobility ecosystem in India. I welcome everyone to join us on this momentous occasion to drive towards a sustainable future.

Sri Arvind Kumar
